*RNTU*

*Bhopal, MP., India*

=====\*\*\*=====

Teachers' born, nurture the quality to alive,  
They are full of academics, intuition and creative.

Universal, are the backbone of the society,

Today lost their morality.

Good teaching brings purity in soul,

Teachers are blessed and ahead spirit of full.

Knows, joyful learning made on students and teachers,

But it is surrender to society movers.

Quality teaching bounded in teacher's motivation,

Motive breaks on capitalist, salvation.

Colourful teachers flying in academic garden,

Meeting up of only self needs and driven.

Recognises, they are burden to students and society

It's their prime oiling and mobility.

Shy, shy, it's society's shyness,

Where the teacher's are close lips for selfishness.

Stand on your feet to refresh,

Be ready and responsible to society's and student's crash.
